# A MESSAGE FROM OUR CHAIR & PRESIDENT

## DEAR FRIENDS,

Thank you for being a part of the Warner Parks success. Recent trail counts tell us that Warner Parks hosts over 1.5 million people annually— a true testament to the role this protected landscape plays in the lives of our Nashville community and visitors.

For 36 years, Friends of Warner Parks has invested in the health and vitality of our community and natural environment; this year is no exception. These highlights reflect our commitment to a sustainable, vibrant future for our Warner Parks:

- Restoration of 8 bridges and 24 miles of hiking and equestrian trails
- Restoration of the Edwin Warner Park Picnic Area within the Harpeth River Watershed
- Restoration of the historic Percy Warner Golf Course

- Expansion of our BIRD research and Nature Discovery Program
- Creation of a new Nature Play area at the Warner Park Nature Center.

The demands of maintaining this intricate, delicate landscape require the dedication and resources of Friends of Warner Parks. Warner Parks thrives and endures thanks to the efforts of our Friends staff, donors, volunteers, and community partners.

Thank you for your continued support.

Sincerely,

Govan White  
Chair, Board of Friends  
of Warner Parks

Jenny Hannon  
President, Friends of  
Warner Parks

## BOARD OF DIRECTORS

As of June 30, 2023.

### CHAIR

**Govan D. White**  
Co-founder and Principal,  
Covenant Capital Group

### VICE CHAIR

**Bo Tyler**  
Senior Managing Director, JLL

### SECRETARY

**Kaaren May**  
Community Volunteer

### TREASURER

**J. Banks Link**  
Co-founder and Principal,

# TRAIL RESTORATION & MAINTENANCE

## Restoring 24 Miles of Trails and 8 Bridges

Warner Parks boasts 60+ miles of pedestrian, equestrian, and biking trails, winding through the infamous Harpeth Hills, across tributaries of the Cumberland River, and past hundreds of acres of old hardwood forests.

In June of 2023, we completed a two year primitive trail restoration in Warner Parks to address soil erosion, root exposure, trail widening, poor drainage, and standing water along the trails. With the crew from Tailored Trails, LLC, we successfully improved drainage, conducted necessary re-routes, redistributed soil, and installed 8 new hybrid timber and fiberglass bridges throughout the Warner Parks.

This \$1 million project ensures our trails and bridges remain durable and accessible for years to come.

Right: Before and after trail restoration (Red Trail, Percy Warner Park).

BEFORE

AFTER

## Special Work Education and Trails (S.W.E.A.T.)

For eight weeks each summer and winter, the Warner Parks S.W.E.A.T. (Special Work Education and Trails) Program employs hard-working crew members to maintain and improve Warner Parks trails, facilities, landscaping, and natural areas.

This year's S.W.E.A.T. crew members traveled from all over the United States to learn valuable resource management and environmental stewardship skills. Highlights include:

- Construction and of drains, ramps, steps, and gullies
- Dispersal of gravel throughout parking lots and trails
- Cleaning graffiti and litter cleanup
- Invasive plant removal
- Maintaining commemorative benches and memorial trees.

Above: Hybrid timber and fiberglass bridge in Edwin Warner Park, constructed as part of the Trail Restoration Project.

# NATURAL RESOURCE MANAGEMENT

Top-left : Volunteer removing invasive plant along the White Trail in Percy Warner Park.

## The Fight Against Invasive Plants in Warner Parks

Nonnative invasive plants pose the largest threat to the native biodiversity of the Warner Parks– preying on our native species, outcompeting them for food, carrying harmful diseases, and preventing native plant species from reproducing.

We are on a mission to completely eradicate invasive plants from the Warner Parks with the help of Invasive Plant Control, Inc., a local company that specializes in safely removing these harmful species such as bush honeysuckle, privet, ailanthus, and euonymus. This past year, we treated over 400 acres of invasive plants in Warner Parks, bringing the total treated acreage in Warner Parks to 890.

This is an ongoing project in Warner Parks; each treated acre requires annual retreatment until native species can take back the landscape and truly thrive.

## Healing the Landscape Along the Little Harpeth River

When the Edwin Warner Park Picnic Shelters were originally built in the 1960s, there was little consideration for

the impact these high-use areas would have on the native ecology and integrity of the Little Harpeth River floodway. Today, we have a greater understanding of our impact on these sensitive ecosystems; we completed the Edwin Warner Park Land and River Restoration Project in June 2023, a major project to:

- Remove shelters #9, #10, and #11 (built along the riverbank and in the floodway)
- Reduce pavement, asphalt drives, and parking lots in the Edwin Warner Park floodway
- Plant 100+ native trees and other native plants along the riparian buffer zone in place of these shelters
- Rebuild and expand shelters #9 and #10 away from the riverbank and out of the floodway.

This project was only possible with the help from our community partners at Cumberland River Compact, Metro Water Services, and Metro Parks and Recreation, in addition to support from Collier Engineering.

# HISTORIC SITE RESTORATION

## RESTORING THE PERCY WARNER GOLF COURSE

Percy Warner Golf Course opened in 1937 as Nashville’s second public golf course. Throughout its 84-year history, the course has been credited with introducing more people to the game of golf than any other course in Nashville.

Led by esteemed architect Bruce Hepner, this year-long renovation included the installation of new irrigation and one modern green complex, expansion of tee boxes and bunkers, creation of a one-of-a-kind short-game practice area, and the restoration and management of surrounding woodlands.

“This is the every man’s golf course. That’s what we thought about when we built it. We designed it so [that] it’s playable, maintainable, challenging, and accessible at the same time. We built it for everyone,” said Hepner.

In partnership, Friends of Warner Parks, the Tennessee Golf Foundation, and Metro Parks and Recreation have transformed the Percy Warner Golf Course for both the betterment of our park and our Nashville community, harnessing \$2.5 million for course renovations and improvements.

Below: Jim Nantz at the Percy Warner Golf Course Celebration & Ribbon Cutting Celebration, by Darren Reese.

On October 5th, we celebrated the renovation of the Percy Warner Golf Course and were joined by legendary sports commentator and Nashville resident Jim Nantz for the celebration and ribbon-cutting ceremony.

The newly renovated course is set to open for public play in June 2024.

*“When I see that we invest in our future, through this parcel of land, it’s not golf. We’re paying it forward here. We’re giving people a chance to come out here and dream.”  
-Jim Nantz, CBS Sports*

# WILDLIFE RESEARCH & EDUCATION

## Our BIRD Program's Legacy of Avian Research

Long-term data and research have shown bird populations across all species have declined by 30% since the 1970s.<sup>1</sup> As a collaboration between Friends of Warner Parks and the Warner Park Nature Center, the Warner Parks BIRD Research team works to inform our understanding of birds and long-term population trends like this, ultimately informing conservation management while engaging thousands of park visitors at the Warner Park Nature Center Banding Station.

In July 2022, Friends of Warner Parks funded the first-ever full-time BIRD Research Coordinator Laura Cook, whose research background and influence has

transformed our BIRD Program into a leader in avian research in the region.

Building upon the legacy of bird research in Warner Parks, which began in 1936 with Eastern Bluebird Research and the WPNC Banding Station in 1987 with Sandy Bivens, Laura and the team of dedicated volunteers have continued to build diverse partnerships across national and international research networks and help establish the next generation of researchers.

This past year, the BIRD Program mentored 4 undergraduate researchers from Lipscomb University and Tennessee State University, hosted the first-ever Inland Bird Banding Association National Conference at Warner Park Nature Center, and played an integral role in establishing Nashville as an Urban Bird Treaty City– the first city to receive this designation in Tennessee and the 31st across the United States.

This designation is the next step in ensuring our city continues to conserve bird habitat, reduce hazards to birds, and engage our city's residents and guests about the importance of birds and conservation.

## Restoring the Nature Play Area in Edwin Warner Park

In spring 2023, we fully expanded and enhanced the Nature Play Area at the Warner Park Nature Center thanks to the generosity of the Carpenter Family Foundation.

New features include a bird's nest platform and slide, a babbling brook, a new log cabin, grassy mounds, shade structures, a willow tunnel, and balance beams. With support from the Hays Family Foundation, there is also a new pavilion adjacent to the Nature Play Area for community and family gatherings.

This re-imagined Nature Play Area encourages positive, imaginative, and unstructured experiences in nature for our community and the next generation.

## Urban Nature Program—Connecting Nashville to Nature

Research shows that consistent access to nature, outdoor education, and hands-on environmental experiences benefit youth's physical, social, and emotional well-being. To make a greater impact in our community, we hired Caroline Crews in November 2022 as

the new full-time coordinator of the Warner Parks Urban Nature Program, a collaboration between Friends of Warner Parks, the Warner Park Nature Center, and Metro Parks Community Centers.

This year, the program has served over 1,000 youth from 22 Metro Parks Community Centers through PEN Pals summer camps, after school Nature Detectives clubs, and Fall Campfires and Night Hikes. The program has also hosted its first-ever Professional Development Workshop for Community Center Leaders, building skills and techniques to engage youth in science and nature.

In May 2023, our partners at Nissan generously donated a 12-passenger van to the Urban Nature Program, allowing us to transport youth from Metro Nashville Community Centers to the Warner Parks and other outdoor spaces for exploration, discovery, and immersion in nature.

With recent program expansion and access to transportation, youth from Metro Parks Community Centers will be introduced to new outdoor experiences such as hiking, kayaking, wildlife observation, and naturalist skills in the Warner Parks and their local communities.

# COMMUNITY ENGAGEMENT & RECREATION

## Fundraising Events

We hosted 11 major fundraising events in the Warner Parks this year to raise over \$1,338,000 toward our mission. With 13,750 in total event attendance, 2023 was a record-breaking year for our organization.

# FINANCIAL RESULTS

## Outlook for Fiscal Year 2024

Our dedicated team has embraced the challenge of preserving and maintaining this important park and our work reflects a story of resilience, collaboration, and hope for the future. We are focused on responsible growth and cost management - with an eye towards a grand Centennial Anniversary celebration of the parks in 2027.

In addition to a commitment to increase revenue through annual contributions and events, we continue to promote our Legacy Giving Program. A goal of this program is the growth of the endowment to provide long-term financial stability for the organization, to underwrite our work, and to expand our ability to protect the park.

### Fiscal Year 2023 Operating Results

Friends of Warner Parks has been in a strong financial position for almost 40 years and is well-positioned to continue the preservation and protection of the park. By all measures, Fiscal Year 2023 was an outstanding year for the organization.

We continue to be humbled by the support of our donors and patrons. Individual giving and events ended the year well ahead of target. Contributions grew to \$789k, an increase of 9% over the prior year. Fundraising event revenues grew to \$1.34 million, an increase of 24% over the prior year.

Several significant projects were completed during Fiscal Year 2023, including: trail restoration; bridge replacement; equestrian trail restoration; historic Hodge House restoration; Nature Play campus at the Warner Park Nature Center; Edwin Warner Park river and land restoration; and the sandstone plaza at the Belle Meade entrance to the park. Work continued on the Percy Warner Golf Course Restoration.

In total, Fiscal Year 2023 Operating Revenues increased by \$1.99 million to \$6.09 million, as compared to the prior year. Operating Expenses increased by \$2.9 million to \$5.9 million, as compared to the prior year as significant park investments were made.

### Net Assets

The balance sheet of Friends of Warner Parks remains strong, and the organization ended Fiscal Year 2023 with total net assets of \$6,263,482, which was a decrease of \$918,388 as compared to Fiscal Year 2022. The decrease was mainly attributable to expenses incurred and investments made for capital projects.

### Endowment

Investments held for endowment (excluding a beneficial interest in funds held by others) on June 30, 2023, were \$849,809, an increase of \$671,029 from June 30, 2022, which included \$600,300 in new contributions to the endowment and \$70,696 of investment gains. The investment of the endowment is guided by a strategy that reflects the unique mission to preserve, steward, and protect the park and make certain the park is sustained for future generations.

### Land Transfer

In June 2023, 4.6 acres of land purchased by Friends of Warner Parks were transferred to the Metropolitan Government of Nashville and Davidson County, Tennessee.
